

Coaching Committee 2019 AGM Report

2019 has been a positive year for SANA Coaching with many activities taking place throughout the country.

Early in the year, SANA coaches worked with the [Forbes of Kingennie Resort](#) at two 'have a go days' with up to 60 kids of all ages given the opportunity to try angling.

Other events taking place at Kingennie were fortnightly evening coaching sessions organised administrated and operated by SANA UKCC coaches and Kingennie staff.

[Ledyatt Fishery](#) also played host to the SANA UKCC coaches along with the World & European teams for a full weekend. The combination of coaches and internationalists offering advice with live demonstrations to members of the public and fishery customers alike proved a great success.

Jim Mathew continued his great work in several schools overseeing the development of many young people. Their activities included fly tying, casting lessons and tackle assembly. All their hard work was put into practice over a few days at a [Moffat Fishery at the Green Frog](#). All participating schools support the programme.

Alisdair Mair continued his excellent work at the [Lake of Menteith](#) coaching youngsters in the art of fly fishing from a boat as well as boat handling and boat safety. Alisdair's Cormorants have proved to be a valuable grounding and stepping stone to the youth international team.

Recognising the need for coach development, SANA wrote a series of Continual Progressive Development modules (CPD). These were delivered to several coaches as well as members of the 5 Nations International Teams.

SANA development trained over 20 volunteers made up of a mixture of parents and youth team committee members to assist the youth committee in the smooth operation of the youth international team home and abroad.

SANA development is also working on a coaching framework designed to support our coaching strategy for 2020. We are developing our plan to improve communication with the general public and coaches alike and to ensure regular coaching activity throughout the country.
